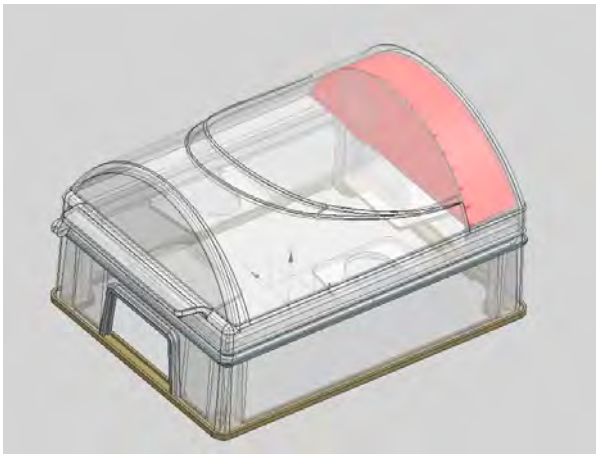
POLYCARBONATE PROTECTION

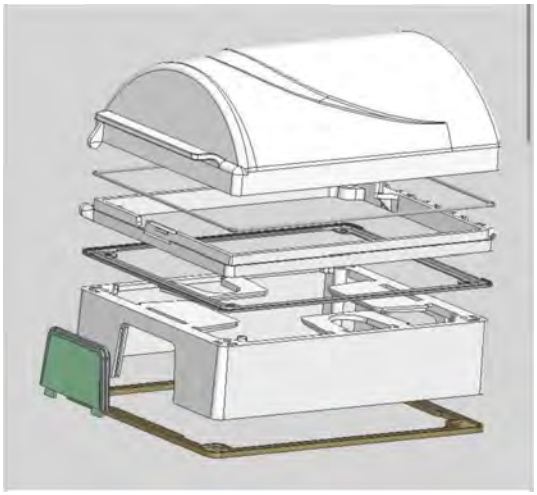
Ideal for INDOOR & OUTDOOR use

Ideal Our Outdoor Installations with Optional Gaskets

SEKURIT Universal Stopper



Optional Multiple Gaskets upto 7 no.'s for Outdoor Installation



PRODUCT OVERVIEW

These indoor and outdoor low profile or dome polycarbonate covers protect devices such as manual call points, emergency buttons and dual action pull stations etc., without restricting legitimate operation. The versatile cover offers excellent protection against physical damage (both accidental and intentional), dust and grime as well as severe environments inside and out.

IMPORTANT NOTICE

When used on fire systems, Universal Stopper is intended for areas where the incidence of false fire alarms from manual call points is high or has proven to be a serious problem. Any disadvantage of the device is more than balanced when one considers the consequences of false fire alarms, especially if fire service personnel and equipment are responding to a false fire alarm when they are needed for a real fire somewhere else. Add to this the disruption to the facility when false alarms occur. If you have, or may have, a problem with false fire alarms or physical/weather damage to your fire alarm activation devices, the Universal Stopper could prove invaluable.

KEY FEATURES

General Information

- These indoor and outdoor low profile or dome polycarbonate covers can protect a variety of devices without restricting legitimate operation.
- Three year guarantee against breakage of polycarbonate in normal use (one year on electromechanical and electronic components).

Design

- Prevents false alarms, without hindering legitimate operation of a manual call point in the event of an emergency.

Construction

- Tough polycarbonate housing can withstand severest of knocks.

Installation

- A simple 4 fixing installation can retrofit over existing device.
- Can accommodate flush or surface mount applications.
- Typical working properties of polycarbonate are -40° to 121°C (-40° to 250°F).

Electronics

- **Optional** Available with or without a 96 dB integral sounder, powered by a 9V PP3 battery. The sounder draws immediate attention to the area.
- Optional 12-24 VDC powered units.

Options

- Optional breakseals are available for added security.
- Available in a range of colours.
- Custom labelling available.
